## Other Highlights

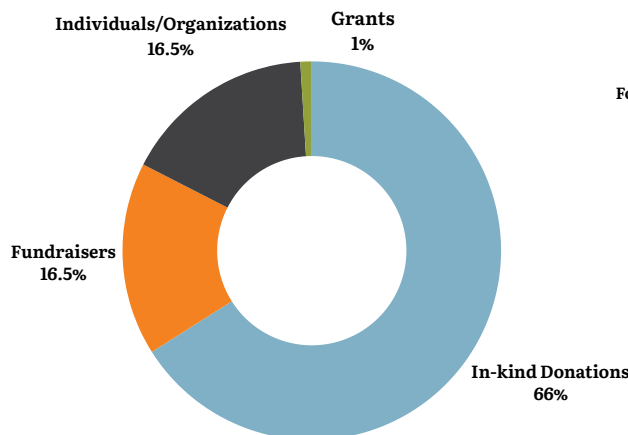

- Maintained an Additional 30% Increase in Need of Food
- Equivalent of 1 Million Meals Served
- Nearly 4,600 pounds of Produce from our Organic Garden

Over 5% of our neighbors in the greater Folsom area are living at or below the poverty level. These are primarily working adults, small children, students and senior citizens on a fixed income who have more month than money. By providing nutritious food to these individuals, we give them a hand up to free up money to pay for needs like rent and health care and to focus on academic studies.
